

FOR 3RD-5TH GRADE **NEXPLORE** ROBOT, 3D PRINTING, AND DRONES CAMP

CALLING ALL ENGINEERS AND SCIENTISTS!

CPS South Loop brings two Nexple programs to life in a two-week camp!

Children will build and take home a series of Robots each of which operates with different mechanisms, such as a bubble machine and wind-powered car. They will build 3D printed towers. And they will also get a chance to learn the ins and outs of drones by building one from the ground up and play with their creations.

At the end of the day, children will walk out with drone piloting experience and a robot to take home!

July 1 – July 10
Monday – Wednesday

Time
8:15am – 11:15pm
